About This Content

The Interwar Artillery sprite pack adds unique uniforms for armies using artillery divisions in the interwar period between WWI and WWII.

From 1919 and forward, twelve countries are able to receive new, unique and historically accurate uniforms. Besides adding to the visual appeal of your armies, it will also help you identify which of your armies have the important artillery units very quickly.

The set includes 12 artillery uniforms. Austrian, British, Chinese, French, German, Italian, Japanese, Russian, Spanish, Swedish, Turkish, and US armies receive new artillery uniforms.

Paradox arbitrarily increases the prices of all games developed and published by them, without giving any information in advance. They literally increased by 40% or so the prices of ALL the games published by them in a very sneaky manner, and when they were questioned, they claimed it was a fair change "due to increase in purchase power on the regions that the price was increased".

No, there was not even a single bit of increase in many (or maybe any) of these regions. Regions that also happen to not have as much purchasing power.

Also, their DLC policies is worsening at every release. Giving little to irrelevant content, and asking for a high price. (That's even higher now, despite everyone complaining about their pricing, which was already bad back in the day.)

So I suggest anyone else to NOT fall in their pathetic policies, and AVOID at all costs any of their games.
